SUMMARY

Results-driven B.Tech CS graduate experienced in building full-stack applications and deploying AI models. Skilled in Python, React, and AWS Lambda, with hands-on expertise in developing scalable LLM solutions and reducing latency.

SKILLS

Programming Languages: Python, Java, OOPS

Web Development Frameworks: HTML, CSS, JavaScript, React, Node.js

AI & Machine Learning: Numpy, Pandas, Deep Learning, TensorFlow

Databases & Core CS: MongoDB, SQL, Data Structures & Algorithms

Cloud & Development Tools: AWS, GitHub

PROJECTS

Serverless Machine Learning inference via Model Slicing

Oct 2025

- Built a serverless ML inference system using AWS Lambda, storing models in Amazon S3 and containerizing deployment with Docker.
- Applied model slicing to enable scalable and cost-efficient predictions, useful for real-time applications like recommendation systems and fraud detection.

Sahaya - AI-Chatbot

Dec 2024

- Built a mental health Chatbot using Firebase, Groq API
- Enhanced Website through a responsive design, improved UI/UX with advanced CSS and JavaScript, and seamless collaboration using Git

Smart Price Prediction

- Built a React-based e-commerce web application utilizing Vite and Vercel to dynamically predict optimal pricing based on catalog data.
- Designed a responsive, glassmorphic UI to streamline product feature input (text and images), integrating with a simulated ML backend.

EDUCATION

Keshav Memorial Institute of Technology

Hyderabad

Bachelor of Technology in Computer Science Engineering (Data Science)

2022 - 2026

SriAadya Junior College

2020 - 2022

Intermediate MPC – CGPA: 9.30/10.0

Janapriya High School

2020

Secondary School of Education – CGPA: 10.0/10.0

CERTIFICATIONS

- [Anthropic Certificate: Model Context Protocol Advanced Topics](#)
- [Deep Learning Certificate: Attended a Guest Lecture on Deep learning in speech processing](#)
- [NextWave Certificate of achievement: Participated in Generative AI Mastery Workshop](#)

ACHIEVEMENTS

- [Project Expo Finalist: Qualified for the KMIT Project Expo \(Dec 2025\)](#)
